Re: Vfend

APR 3 2003

Docket No.: 03E-0031

The Honorable James E. Rogan  
Under Secretary of Commerce for Intellectual Property and  
Director of the United States Patent and Trademark Office  
Box Pat. Ext.  
P.O. Box 2327  
Arlington, VA 22202

Dear Director Rogan:

This is in regard to the application for patent term extension for U.S. Patent No. 5,567,817, filed by Pfizer, Inc., under 35 U.S.C. section 156 et seq. We have reviewed the dates contained in the application and have determined the regulatory review period for Vfend, the human drug product claimed by the patent.

The total length of the regulatory review period for Vfend is 2,452 days. Of this time, 1,898 days occurred during the testing phase and 554 days occurred during the approval phase. These periods of time were derived from the following dates:

1. The date an exemption under subsection 505(i) of the Federal Food, Drug, and Cosmetic Act involving this drug product became effective: September 8, 1995.

The applicant claims September 27, 1995, as the date the investigational new drug application (IND) became effective. However, FDA records indicate that the IND effective date was September 8, 1995, which was thirty days after FDA receipt of the IND.

2. The date the application was initially submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act: November 17, 2000.

FDA has verified the applicant's claim that the new drug application (NDA) for Vfend (NDA 21-266) was initially submitted on November 17, 2000.

3. The date the application was approved: May 24, 2002.

FDA has verified the applicant's claim that NDA 21-266 was approved on May 24, 2002.

This determination of the regulatory review period by FDA does not take into account the effective date of the patent, nor does it exclude one-half of the testing phase as required by 35 U.S.C. section 156(c)(2).

Please let me know if we can be of further assistance.

Sincerely yours,

*Jane A. Axelrad*
